Project

Estancia Vigil seeks to bring the successful Mendoza brand Casa Vigil to Buenos Aires, taking advantage of the growing demand for excellent wine tourism and gastronomic experiences. We wish to offer visitors a unique experience that combines the passion for wine, gastronomy and culture.

Our ecological commitment is reflected in every aspect of our operation, working with producers to offer the highest quality. At Estancia Vigil each dish is a tribute to Nature and to those who produce the ingredients, promoting sustainability and responsible consumption.

Wine is an essential part of our dining experience. We offer a careful selection of wines by Alejandro Vigil, from Bodega El Enemigo, known for their excellence and distinctive character, which perfectly complement our dishes and elevate the culinary experience.

Architectural Concept

The style we chose is a reinterpretation of the traditional architecture of the Patio Style, European mansions that were brought to our country at the end of the XIX century by the European immigrants who forged the beginnings of the wine industry in Argentina.

Our Gastronomy

We offer a cuisine with products from our land, the vast majority are from nearby farms: fruit and vegetables, eggs, milk and other dairy products, poultry, as well as our famous beef.

For this reason, the kitchen is very marked by Seasonal products, which we always treat with the utmost respect so that all the qualities can be appreciated and enjoyed in the best conditions.

All dishes are paired with wines with the highest international scores, which are the great treasure of Estancia Vigil.

Our Gastronomy

The Wines

Estancia Vigil offers a wine proposal focused on quality and innovation, under the direction of the renowned winemaker Alejandro Vigil. Each bottle reflects Vigil's passion and commitment to excellence, combining modern techniques with traditional practices to create unique, high-quality wines that have captivated critics and wine lovers. His wines are considered among the best in Argentina and the world, and stand out due to their production process and faithful representation of the Argentine terroir. The El Enemigo line has received international recognition, for its complexity and elegance.

Additionally, at Estancia Vigil, we will have a selection of the best wines from Argentina and the world. This careful collection will include prestigious labels that will complement our offer, giving our clients the opportunity to enjoy an incomparable oenological experience, with exceptional wines from many of the most recognized regions in the world.
